DIR-818LW Firmware Release Notes

Hardware: Ax
Date: 2013/09/01
Firmware: v1.04

Problems Resolved:

Revise Dynamic DNS UI description.

Enhancements:

Dynamic DDNS address can now be manually configured.

Router will now change its IP address for LAN, Wireless LAN or Guest Zone interface to avoid IP conflicting with the one provisioned from ISP.

Improve security on web interface.

Known Issues:

None
