Quick Installation Guide

COVR-L1900

AC1900 Mesh Wi-Fi Router/Extender

PACKAGE CONTENTS

- COVR-L1900 || AC1900 Mesh Wi-Fi Router/Extender
- Power Adapter
- Ethernet Cable
- Quick Installation Guide
- Quick Installation Card

INSTALLATION

OPTION 1 — D-LINK WI-FI APP SETUP

1 / Download the D-Link Wi-Fi app and launch it.

App Store · Google Play · D-Link Wi-Fi

D-Link Wi-Fi

2 / Tap **Install New Device**. Scan the QR code on the Quick Installation Card. Follow the on-screen instructions to complete the setup. **NOTE:** If you are setting up a second COVR-L1900 for a Mesh Network, see the "**D-Link Wi-Fi Mesh"** section below.

OPTION 2 — WEB BROWSER SETUP

1 / Plug the router into a power source. Make sure that the power button is on. Wait for the status LED to either flash orange or turn solid white.

2 / Connect your computer to the Wi-Fi details printed on the Quick Installation Card. Type **http://dlinkrouter.local./** into a web browser. You will be asked for your Admin Password. By default this password is "**password**". Type that in and follow the on-screen instructions to complete the setup.

NOTE: If you are setting up a second COVR-L1900 for a Mesh Network, see the "**D-Link Wi-Fi Mesh"** section below.
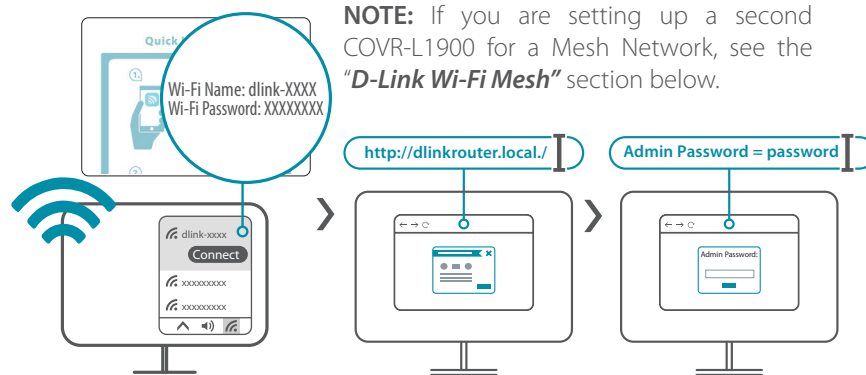

Wi-Fi Name: dlink-XXXX
Wi-Fi Password: XXXXXXXX

http://dlinkrouter.local./ · Admin Password = password

You're all good to go! Once the setup is complete, you can connect your devices using the Wi-Fi name (SSID) and password that you created during the setup. Enjoy the Internet!

? FREQUENTLY ASKED QUESTIONS

Quick I

Wi-Fi Name: dlink-XXXX
Wi-Fi Password: XXXXXXXX

Why can't I access the web-based configuration utility?

Verify that **http://dlinkrouter.local./** has been correctly entered into your Web browser. Make sure that you are connected to the correct Wi-Fi Name/SSID and password printed on the Quick Installation Card or that you configured during set up.

Why can't I access the Internet?

Ensure that your modem/gateway is powered on. Also ensure that the Ethernet cable is securely connected to both the router and modem. Verify that the status LED is illuminated on your router. If you still cannot access the Internet, power off your modem and router and power them back on, wait until all the LED is lit and try again.

What if I forgot my router Admin password or want to reset my router?

1. If you forgot your Admin password or want to reset your router back to the factory default settings, press and hold the reset button on the bottom of the router using a paper clip and release after the status LED turns red.

   Note: This process will erase all your settings.

2. Setup your router using your preferred method.
