

DAP-2360

Version 1.0

***AirPremier®* N**  
**PoE Access Point**

**Quick Install Guide**

**Business Class Networking**

---

# Package Contents

- DAP-2360 *AirPremier*® N PoE Access Point
- Power Adapter
- Mounting Plate
- Ethernet Cable
- Manual and Software on CD-ROM

**Note:** Using a power supply with a different voltage than the one included with the DAP-2360 will cause damage and void the warranty for this product. If any of the above items are missing, please contact your reseller.

## Minimum System Requirements

- CD-ROM Drive
- Computers with Windows®, Macintosh®, or Linux-based operating systems
- Installed Ethernet Adapter
- Internet Explorer version 7.0 or Firefox 3.0 and above

### **Safety Notice:**

Installation and servicing should be done by certified technicians so as to conform to all local codes and prevent voiding your warranty.

---

# Hardware Overview

## LEDs

**LAN** - Solid light when the Ethernet port is connected to a working Ethernet device, such as a router or switch. The light will blink when there is traffic through LAN port.

**2.4 GHz** - When lit, the wireless function of the access point is working properly. This light will blink when there is wireless traffic.

**POWER** - The light will blink during boot up. Once solid, the access point is ready.

---

# Installing the Hardware

---

To power the access point, you can use one of the following methods:

1. **Standard** - Use the supplied power adapter.
2. **Power over Ethernet** - Connect one end of your Ethernet cable into the LAN (PoE) port on the DAP-2360 and the other end into one port on a PoE switch or router.

---

# Configuration

To setup and manage the DAP-2360 from a computer, use one of the following methods:

1. Connect a straight through Ethernet cable between the access point and your computer.
2. Connect the access point to a switch or router and use a computer that is also connected to that switch or router.
3. Please start your web browser program, type the IP address of the device (**http://192.168.0.50**) and press **Enter**. Make sure that the IP addresses of the device and your computer are in the same subnet.

---

# Mounting Plate Assembly

**Step 1:** Insert provided wall anchors in the wall where the mounting plate will be attached.

**Step 2:** Use the provided screws to secure the mounting plate on the wall.

**Step 3:** Attach the remaining screws securely to the back of the DAP-2360.

**Step 4:** Attach the DAP-2360 to the mounting plate.

---

**Step 5:** Slide the DAP-2360 down into the grooves on the mounting plate to secure it to the plate.

# Your Setup is Complete

When you have completed the steps in this Installation Guide and configured your network, your network should look similar to this:

\* Maximum Wireless signal rate derived from IEEE 802.11n specifications. Actual data throughput will vary. Network conditions and environmental factors, including volume of network traffic, building materials and construction, and network overhead lower actual data throughput rate.

---
