D-Link
Quick Installation Guide

This product works with Bluetooth enabled PC's with the following operating systems: Windows 98SE, Me, 2000, and XP.

DBT-320

PersonalAir™ Bluetooth USB Printer Adapter

Before You Begin

You must have at least the following:

- Bluetooth Enabled PC Supporting HCRP and SPP Bluetooth Profiles for Printing, Bluetooth Enabled Mobile Phone, or Bluetooth enabled PDA.
- USB Printer* with One Available Type B USB Port.
  (*PCL3 Printer is required for Printing from Cell Phone or PDA)

Check Your Package Contents

These are the items included with your purchase:
If any of the below items are missing, please contact your reseller.

DBT-320 Bluetooth USB Printer Adapter

Wall Mount Cradle

AC Power Adapter

⚠ Using a power supply with a different voltage rating will damage this product and void the warranty.

① Installing the DBT-320

Plug the **DBT-320** Type B USB connector into the Type B USB port located on the back of your printer.

Using the included power adapter, connect the yellow coded plug to the yellow power connector port on the **DBT-320** and the other end of the power connector to an available power strip or outlet.

The **DBT-320 Bluetooth USB Printer Adapter** set up is now complete! You will now be able to enjoy wireless printing from your cell phone, PDA, laptop, or computer with the **DBT-320 Bluetooth USB Printer Adapter.**

② DBT-320 LED Indicators

Power
Indicator

Bluetooth
Link
Indicator
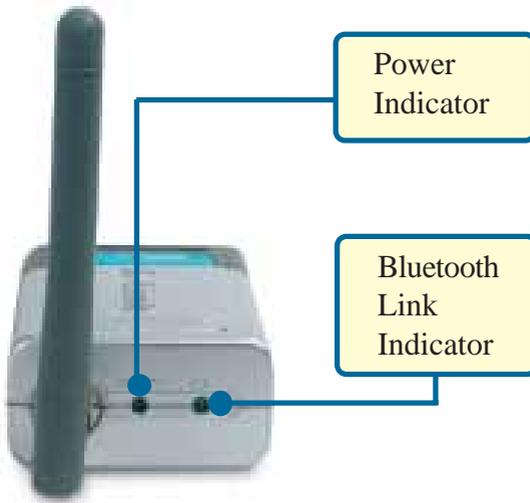

The DBT-320 features two LED indicators, the **Ready** LED and the **BT** LED.

- The **Ready** LED indicator will light solid green when the DBT-320 is powered on with the external power adapter. When the printer is powered on, a blinking green Ready LED indicates a successful printer connection.

- The **BT** Indicator will blink green when a file is being sent to the printer from a laptop, computer, PDA, or cell phone.

③ Printing from your Laptop/PC using the DBT-320

Your Bluetooth enabled laptop or computer will have Bluetooth software that will enable you to connect to the DBT-320 printer adapter. The instructions on the following page are based on a D-Link DBT-120 USB Bluetooth adapter used with a PC running Windows XP with Widcomm Bluetooth Software v1.4.2.10. Depending on the Bluetooth setup on your system, the installation procedure may vary slightly.

Double-click the **Bluetooth** icon on your desktop or in the systray to access **My Bluetooth Places**

3:10 PM

My Bluetooth Places

My Bluetooth Places is also accessible from the Start Menu:
Go to Start > Programs > My Bluetooth Places

Click **Search for devices in range**

If detected, the D-Link DBT-320 printer icon will be displayed. If the DBT-320 is not detected, press F5 on your keyboard or right click on the mouse and select refresh to search again.
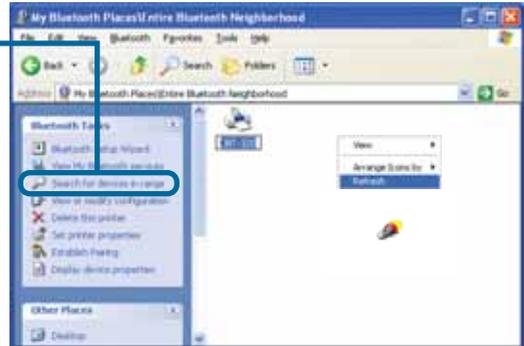

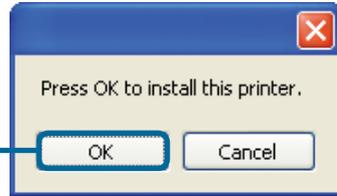

Double Click to install printer drivers
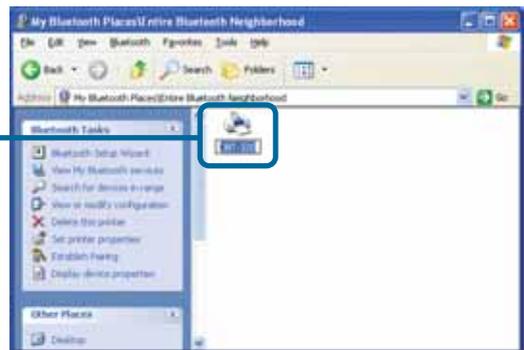

*Note: If the printer is being used by another Bluetooth user, you will not be able to detect the DBT-320.

Press OK to install this printer.

Click **OK**

Add Printer Wizard

Select the manufacturer and model of your printer. If your printer came with an installation disk, click Have Disk. If your printer is not listed, consult your printer documentation for a compatible printer.

Select the Manufacturer of your printer and your printer model.

Manufacturer	Printers
Fujitsu	Hewlett-Packard HP-GL/2 Plotter
GCC	HP 2000C
Generic	HP 2500C Series
Gestetner	HP 2500C Series PCL5Ce
HP	HP 2500C Series PS3
IBM	

Click **Have Disk**

This driver is digitally signed.

3 Printing from your Laptop/PC using the DBT-320 *(continued)*

The printer properties window will be displayed once your printer is installed. You can click on **Print Test Page** to test your connection to the DBT-320.

Click **Print Test Page**

4 Printing from your Mobile Phone

To print from your mobile phone, be sure that you have at least the following:

- Bluetooth enabled mobile phone supporting the Bluetooth Object Push Profile. This enables the printing of business cards from your mobile phone.
- PCL3 printer

The Bluetooth printing procedure will vary depending on the manufacturer of your mobile phone. Please check your mobile phone manual or with your manufacturer for specific directions on how to print.

5 Printing from your PDA

To print from your PDA, be sure that you have at least the following:

- Bluetooth enabled PDA
- Bluetooth Software supporting the Object Push Profile
- Printing software (i.e. PrintPocket CE for PDAs running Pocket PC 2002 or 2000, BTPrint for Palms running Palm OS 4.x or OS 5.x, iPAQs running Pocket PC 2003)
- PCL3 printer

The Bluetooth printing procedure will vary depending on the manufacturer of your PDA and software that you are using. Please check your PDA manual or with your manufacturer for specific directions on how to print.

6 Troubleshooting Tips

If you are having trouble printing with the DBT-320 check the following:

- Make sure your printer is turned on and the Ready LED on the DBT-320 is green. If the Ready LED is not green, check your USB connection to the printer.

- Make sure the Bluetooth icon on the screen of your laptop, computer, mobile phone, or PDA is white. This means that the Bluetooth application is ready. If the Bluetooth icon is not white, try rebooting your Bluetooth mobile device and/or reinstalling your Bluetooth software. Check that your Bluetooth software supports the HCRP, and SPP Bluetooth profiles for printing.

- If the Bluetooth icon is red, the DBT-320 is not properly connected. Check the DBT-320 connection to your printer and your printer connection.

- When printing, the Bluetooth icon will blink Green. If the Bluetooth LED is not flashing on, check your DBT-320 connection to the printer. Your printer may also not be configured correctly. Check your printer configuration.

Technical Support

You can find software updates and user documentation on the D-Link website.

D-Link provides free technical support for customers within the United States and within Canada for the duration of the warranty period on this product.

U.S. and Canadian customers can contact D-Link Technical Support through our website, or by phone.
