Simple Setup

Note: Make sure that your DCH-S162 hub is set up and functioning properly beforehand.

- 1 Get the **mydlink** app on the App Store or on Google Play. Launch the app, then **Sign In** or **Create a New Account**.

- 2 Tap then tap **Add a Device**.

Add a Device

- 3 Tap **Scan**, then scan the Setup Code located in the **Setup Code** section. Follow the app instructions to set up your device with your DCH-S162 hub.

FAQ

What do I do if my device is not working properly?

Reset and reinstall your device. During installation, ensure that:

- Your router is connected to the Internet and Wi-Fi is enabled
- Your mobile device is connected to your router's Wi-Fi and Bluetooth is enabled
- Your mydlink device is in range of your Wi-Fi network
- Ensure that your DCH-S162 hub is powered on and installed correctly

How do I reset my device?

DCH-S163: Press and hold the Reset button until it blinks orange.

Reset button

How do I install additional DCH-S163 units?

In the mydlink app, tap then tap **Add a Device**. Tap **Scan**, then scan the Setup Code located on the device. Follow the app instructions to set up the additional DCH-S163 units with your DCH-S162 hub.
