

# Wi-Fi Baby Camera Day & Night HD Cloud Camera

DCS-825L

# **Before you Begin**

- Please save this guide for future reference.
- Read these instructions before using your product.
- Do not cover the ventilation holes.
- Do not cover this product with a blanket.
- Do not allow children to play with this product.
- Do not allow this product to get wet. Only use a dry cloth to clean it.
- Cleaning: You only need to clean the desktop base when the sticky pad is no longer sticky. When the pad is dirty, it easily detaches from the camera. The pad may be cleaned with water and air-dried. (Don't use a cloth to dry it.) Make sure the base is completely dry before attaching it to the camera again.
- Do not place this product near water or other liquids, such as near a sink, shower, or bathtub.
- Do not attempt to open or disassemble this product.
- This product is not a replacement for responsible adult supervision.

# WARNING - STRANGULATION HAZARD Children have STRANGLED in cords. Keep adapter cord out of reach of children (minimum of 3 ft or 1 m.)

away). NEVER place the camera or adapter cord inside the crib or child sleeping area. Do not use extension cords. This product is NOT intended to replace proper supervision of children.

## Installation

#### WARNING - STRANGULATION HAZARD

Children have STRANGLED in cords. Keep adapter cord out of reach of children (minimum of 3 ft or 1m away). NEVER place the camera or adapter cord inside the crib or child sleeping area. Do not use extension cords. This product is NOT intended to replace proper supervision of children.

Download the free **mydlink Baby Camera Monitor** app on your smartphone or tablet.

mydlink™ Baby

Once the *mydlink Baby* app is installed, simply tap on the icon to open the app. The first screen you will see is the *Setup Wizard*.

Tap **Setup** to launch the *Setup Wizard*. The wizard will guide you through the configuration process.

## Mount the Camera

Please refer to the steps below to assist you with mounting the camera.

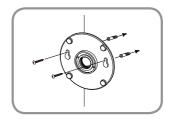

We suggest that you configure the camera before mounting.

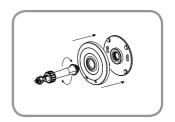

Warning: Indoor use only. Do not mount in a location where it may be in contact with water as it may damage the product and/or cause injury.

- Place the wall mount where you want to position the camera and use a pencil to mark the holes.
- Use a 6mm drill bit to drill both holes at least 30mm deep.
- Use a mallet to insert the wall anchors into the holes.
- Place the mounting base over the holes that are in the wall.
- · Make sure to align the mounting base holes with the holes in the wall and then use the supplied screws to attach the mounting base to the surface of the wall.
- Place the base cover over the mounting base and screw the camera stem into the mounting base.

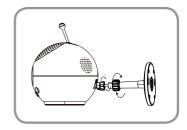

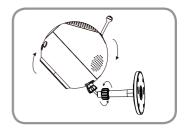

Do not overtighten the screws as this may damage the bracket.

- Remove the desktop base from the camera by simply pulling it off.
- Loosen the collar on the camera stem and then screw the camera stem into the bottom of the camera. Turn the securing wheel to ensure the connection to the camera is snug.

 Adjust the angle of the camera as desired and then tighten the collar on the camera stem to lock it in place.

## **FAQs**

#### 1. The Image is out of focus.

You can turn the white focus ring on the front of the camera to adjust the focus.

#### 2. How do I change the accent ring?

Rotate the access ring counterclockwise, then lift it off. Put the new ring on and rotate it clockwise until it clicks into place.

#### 3. How do I select a different lullaby?

Use the mydlink Baby app to change the lullaby. Click on the music icon on the camera's live view screen. Select a lullaby from the list or select to play all.

#### 4. How do I customize the Iuliabies on my camera?

Visit the support page for your camera on the mydlink.com website for instructions on how to add your own music files to your camera.

#### 5. I started the mydlink Baby Camera Monitor app, but I can't find my camera.

- Make sure your camera is turned on and receiving power.
- If you are setting up a new camera, make sure your smartphone or tablet is connected to the camera's Wi-Fi signal (not your wireless router).
- The Wi-Fi network name should be [myBabyCam-XXXX], where XXXX is a 4-digit code (the last 4 digits of your camera's MAC address).
- The Wi-Fi network name and password is printed on a label on the bottom of your camera and on the back of this install guide.
- If you still can't find your camera, reset your camera by pressing its reset button for 10 seconds (see question 7 below).

#### 6. What does it mean when my Power LED is red?

When you power on the camera, the Power LED will be solid red. When you reset the camera, the Power LED will be flashing red.

#### 7. What can I do if I forget my password?

If you forget your password, you must reset the camera. Unfortunately, this process will change all your settings back to factory default. To reset the camera, locate the reset button on the bottom of the camera. With the camera powered on, use an unfolded paper clip to hold the button down for 10 seconds.

#### 8. Should the app be running constantly on my device?

The app can run in the background, allowing you to hear your baby continuously, even when the phone is locked. The smartphone or tablet can still be used normally while the app is running. If you do not want to hear audio from the camera when the app is open, you can turn off the **Background audio** on the *Configuration* menu. If you close the app, the camera audio will be turned off.

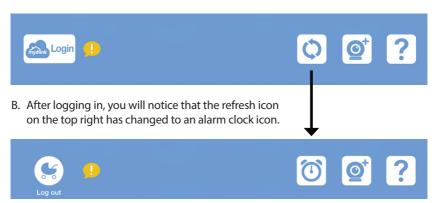

#### 9. How do I adjust the sensitivity of motion and audio detection?

From the *Live View* page, tap on the screen to reveal the icons, and tap the **Configuration** icon ( to go to *Configuration* menu. Tap the **Events** arrow to access the motion and audio detection settings.

#### 10. How do I activate push notifications?

A. Go to the Home page and log in.

C. Tap on the alarm clock icon, and you will see the *Push Notification* setting. Tap on the switch icon to activate push notifications. The switch icon will turn green, and you should begin to receive alerts as specified.

**Note:** If you do not receive alerts, go to the Configuration menu and adjust the sensitivity level of sound and motion detection as described on the previous page, question 9.

**11. Why do I see a white haze when viewing Live Video in night vision mode?**The night vision lights on the camera may be reflecting off a nearby surface. Try repositioning and aiming the camera.
