

Wi-Fi Baby Camera

Pan & Tilt Cloud Camera

DCS-850L

Quick Install Guide

D-Link®

Before you Begin

- Please save this guide for future reference.
- Read these instructions before using your camera.
- Do not manually adjust the angle of the camera.
- Do not cover the ventilation holes.
- Do not cover this product with a blanket.
- Do not allow children to play with this product.
- Do not place this product near water or other liquids, such as near a sink, shower, or bathtub.
- Do not attempt to open or disassemble this product.
- **Cleaning:** You should only clean this camera with a dry cloth. Do not allow the camera to get wet.
- This product is not a replacement for responsible adult supervision.

WARNING - STRANGULATION HAZARD

Children have STRANGLED in cords. Keep adapter cord out of reach of children (minimum of 3 ft or 1 m away). NEVER place the camera or adapter cord inside the crib or child sleeping area. Do not use extension cords. This product is NOT intended to replace proper supervision of children.

Package Contents

DCS-850L Wi-Fi Baby Camera

Wall Mount Kit

Power Adapter

Additional Accent Rings

Mounting Bracket

Quick Install Guide

If any of the above items are missing, please contact your reseller.

Minimum Requirements

Mobile Requirements:

- Refer to the mydlink Baby app page on the App Store and Google Play

Computer Requirements:

- Computer with 1.3GHz processor or above and at least 128 MB RAM
- Microsoft Windows® 8, 7, Vista®, or Mac OS® X (10.6 or higher)
- Internet Explorer® 7, Firefox®12, Safari® 6, or Chrome™ 20 or higher with Java installed and enabled

Network Requirements:

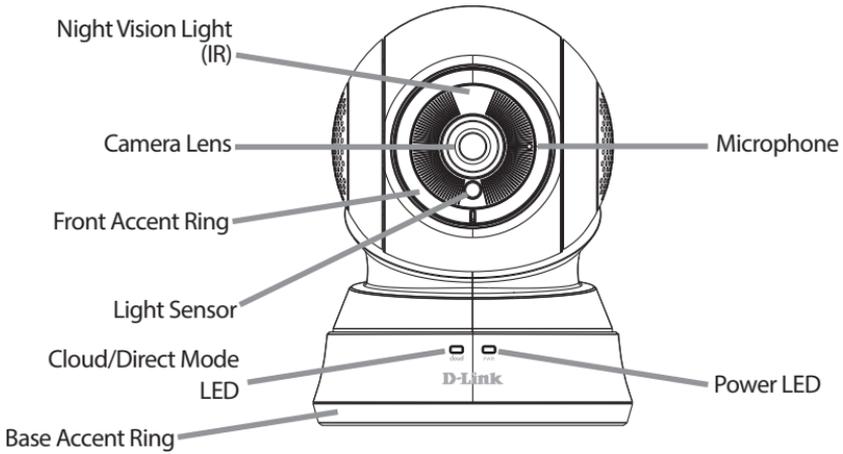

- 802.11g/n Wi-Fi network
(Wireless N network recommended for optimal performance)

Remote Viewing:

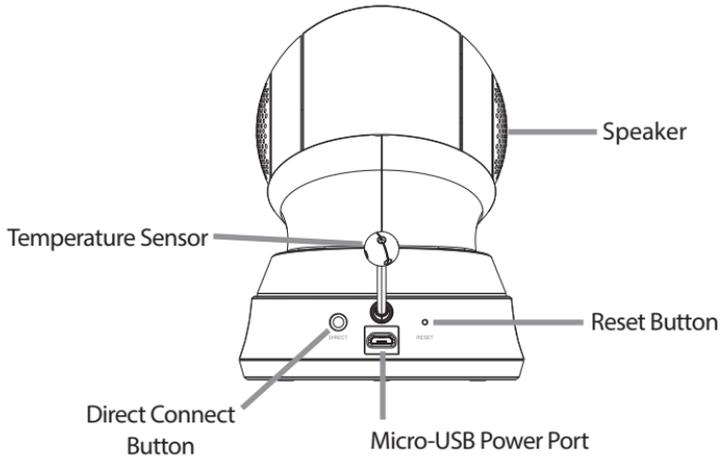

- Internet access required for remote viewing
(Direct Connection requires no Internet connection and no router)

Camera Setup Options

1. At Home...

Connect to your DCS-850L through your home wireless network.

2. Remotely...

Connect to your DCS-850L using the Internet.

Note: You can also connect directly to your DCS-850L wirelessly, so there is no need for an Internet connection or a router. See the **Advanced Features** section of the User Manual for details. Go to mydlink.com/support to download the DCS-850L User Manual.

The screenshot shows the mydlink website interface. At the top, there are social media links for Facebook (Like), Twitter (Tweet), and navigation links for Home, Product, Mobile App, and Support. Below the navigation bar, there are tabs for FAQ, Download, and Contact Us. The main content area features a category filter with 'Camera' selected, and a list of products: DCS-850L, DCS-2132LB1, DCS-2330L, and DCS-5222LB1. On the right side, there is a vertical banner that reads 'A BABY MONITOR FOR THE MODERN PARENT'.

Installation

WARNING - STRANGULATION HAZARD

Children have STRANGLED in cords. Keep the adapter cord out of reach of children (minimum of 3 ft or 1 m away). NEVER place the camera or adapter cord inside the crib or child sleeping area. Do not use extension cords. This product is NOT intended to replace proper supervision of children.

- 1 Download the free **mydlink Baby Camera Monitor** app on your smartphone or tablet.

mydlink™ Baby

- 2 Once the *mydlink Baby* app is installed, simply tap on the icon to open the app. The first screen you will see is the *Setup Wizard*.

- 3 Tap **Set Up New Camera** to launch the *Setup Wizard*. The wizard will guide you step-by-step through the configuration process.

Note: If you experience issues registering this device with your mydlink account, or if you purchased an open box or resold unit, perform a hard reset by pressing and holding the reset button on the device for 10 seconds while the device is powered on. **If you are returning the device to the place of purchase, please perform the hard reset procedure to clear the device of any personal data.**

Mount the Camera

Please refer to the steps below to assist you with mounting the camera.

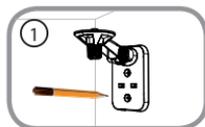

We suggest that you configure the camera before mounting.

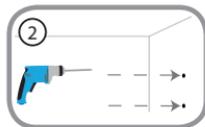

Warning: Indoor use only. Do not mount the camera in a location where it may be in contact with water as it may damage the product and/or cause injury.

- Place the mounting bracket where you want to position the camera and use a pencil to mark the points where you will drill the holes.

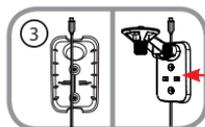

- Use a 6mm drill bit to drill the two holes where you marked. The holes should be 25mm deep (about 1 in deep). Insert the screws into the holes.

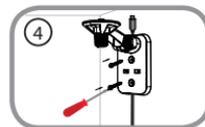

Note: If the wall is made out of concrete, before inserting the screws, insert the provided plastic anchors to support the screws.

- If you prefer, you can conceal the cable behind the mounting bracket. Run the cable through the back of the mounting bracket, securing it with the built-in guides. Make sure you leave enough cable protruding to allow you to connect it to the camera.

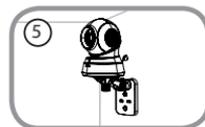

- Fasten the mounting bracket to the wall using the screws provided.

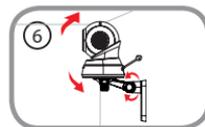

⚠ Do not overtighten the screws as this may damage the bracket.

- Using the supplied thumbscrew, fasten the camera to the mounting bracket. Connect the power cable to the camera.

- Adjust the angle of the arm on the mounting bracket as desired. Tighten the thumbscrew to lock the arm into place.

FAQs

1. How do I change the accent ring?

Rotate the access ring counter clockwise, then lift it off. Put the new ring on and rotate it clockwise until it clicks into place.

2. How do I select a different lullaby?

Use the mydlink Baby app to change the lullaby. Tap on the **Music** icon on the camera's Live View screen. Choose a lullaby from the list, or you can select **Play All**.

3. I started the mydlink Baby Camera Monitor app, but I can't find my camera.

- Make sure your camera is turned on and receiving power.
- If you have set up your camera before, make sure your smartphone or tablet is connected to the same router as your camera.
- If you are setting up a new camera, make sure your smartphone or tablet is connected to the camera's Wi-Fi network (not to your wireless router). This also applies when you enable Direct Connect to use the camera away from home. (See the "Advanced Features" section of the User Manual for details.)
- The Wi-Fi network name should be [myBabyCam-XXXX], where XXXX is a 4-digit code (the last 4 digits of your camera's MAC address).
- The Wi-Fi password is printed on a label on the bottom of your camera.
- You can also find your camera's Wi-Fi network details on a label attached to the back of this *Quick Install Guide*.
- If you still can't find your camera, reset your camera by pressing its reset button for 10 seconds while your camera is plugged in (see question 6 below).

4. What does it mean when the Power LED is red?

When you power on the camera, the Power LED will be solid red. When you reset the camera, the Power LED will be flashing red.

5. Why do I see a white haze when viewing Live Video in night vision mode?

The night vision light on the camera may be reflecting off a nearby surface. Try repositioning and aiming the camera.

6. What can I do if I forget my password?

If you forget your password, you must reset the camera. Unfortunately, this process will change all your settings back to factory default. To reset the camera, locate the reset button on the back of the camera. With the camera powered on, use an unfolded paper clip to hold the button down for 10 seconds.

7. How can you power the camera?

The camera can be powered with the provided power adapter or you can use an external USB battery for total portability. (USB battery is not included. Requires 5V/2A output.)

8. How do I access the camera remotely?

Set up a new mydlink account and/or register the camera with mydlink during the initial setup. Once the process is complete, you can access the login screen for your mydlink account from the Home page by sliding the **Home** icon switch to the right. Enter the **E-mail** address and **Password** for your mydlink account and tap **Log in**.

You will be able to monitor your baby from anywhere, as long as your smartphone or tablet is connected to the Internet (over Wi-Fi or over the cellular network).

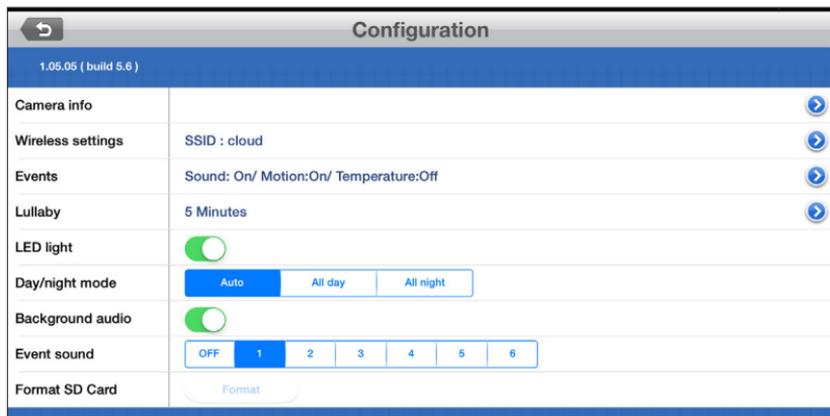

Note: If you do not enable mydlink services, you will only be able to view the camera within your home's wireless coverage area.

9. Should the app be running constantly on my device?

The app can run in the background, allowing you to hear your baby continuously, even when the phone is locked. The smartphone or tablet can still be used normally while the app is running. If you do not want to hear audio from the camera when the app is open, you can turn off the **Background audio** on the *Configuration* menu. If you close the app, the camera audio will be turned off.

10. How do I adjust the sensitivity of motion and audio detection?

From the *Live View* page, tap on the screen to reveal the icons, and tap the **Configuration** icon (⚙️) to go to the *Configuration* menu. Tap the **Events** arrow to access the motion and audio detection settings.

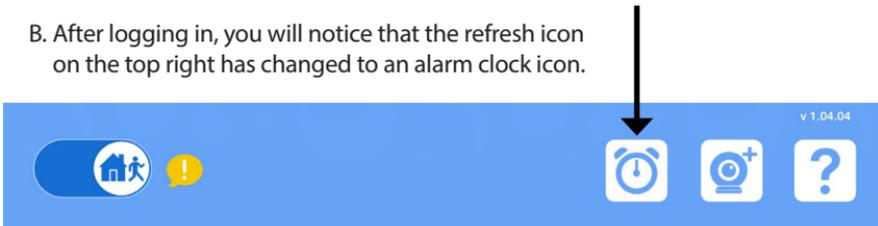

11. How do I activate push notifications?

A. Go to the Home page and slide the **Home** icon switch to the right for remote access.

B. After logging in, you will notice that the refresh icon on the top right has changed to an alarm clock icon.

C. Tap on the **Alarm Clock** icon, and you will see the *Push Notification* setting. Tap on the **Switch** icon to activate push notifications. The switch icon will turn green, and you should begin to receive alerts as specified.

Note: If you do not receive alerts, go to the Configuration menu and adjust the sensitivity level of sound and motion detection as described on the previous page, question 10.

Notes

Technical Support
