DCS-942L

Installation

*Note: If your router supports WPS, please follow the **WPS Setup** steps below.*

Step 1:
Connect the included Ethernet cable to the network cable connector located on the bottom panel of the DCS-942L and attach it to the network.

Step 2:
Attach the external power supply to the DC power input connector located on the bottom panel of the DCS-942L and connect it to your wall outlet or power strip. Power is confirmed when the green LED Power Indicator located on the back panel.

Step 3:
Insert the DCS-942L Driver CD in the CD-ROM drive. If the CD Autorun function does not automatically start on your computer, go to **Start** > **Run**. In the run box type **D:\autorun.exe** (where D: represents the drive letter of your CD-ROM drive) and click **OK**. When the autorun screen appears, click **Install** and follow the on-screen instructions.

Step 4:
Click on the **Start** button to start the wizard, and follow the instructions from the Installation Wizard to finish setting up your camera.

WPS Setup

Alternatively, you may create a WPS connection if your router or access point supports WPS. To create a WPS connection:

Step 1:
Press and hold the **WPS** button on the back of the camera for three seconds. The blue WPS status LED above the button will blink.

Step 2:
Press the **WPS** button on your wireless router or access point within 60 seconds. On some routers, you may need to log into the web interface and then click an onscreen button to activate the WPS feature. If you are not sure where the WPS button is on your router or access point, please refer to your router's user manual.
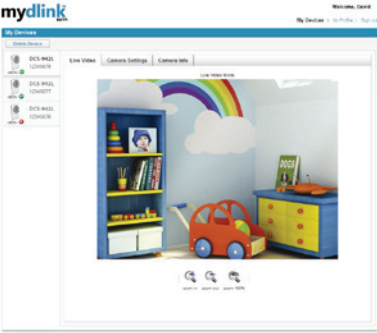

The DCS-942L will automatically create a wireless connection to your router. While connecting, the green LED will flash and your camera will reboot.

mydlink Portal

After registering your DCS-942L camera with a mydlink account in the Camera Installation Wizard, you will be able to remotely access your camera from the www.mydlink.com website. After signing in to your mydlink account, you will see a screen similar to the following:

Step 1:
Open Internet Explorer and go to **http://www.mydlink.com**, then sign into mydlink.

Step 2:
Select your camera from the device list, and your camera's Live View will appear.
