## DES-6506

### FEATURES

#### High-performance Switching:

- Patch panel support 2 RJ-21 ports to 24-ports RJ-45 10/100 BASE-TX
- Compatible with the DES-6510 RJ-21/Telco 50 Module
- Use in conjunction with DES-6510 module for DGE-6500 series chassis switch

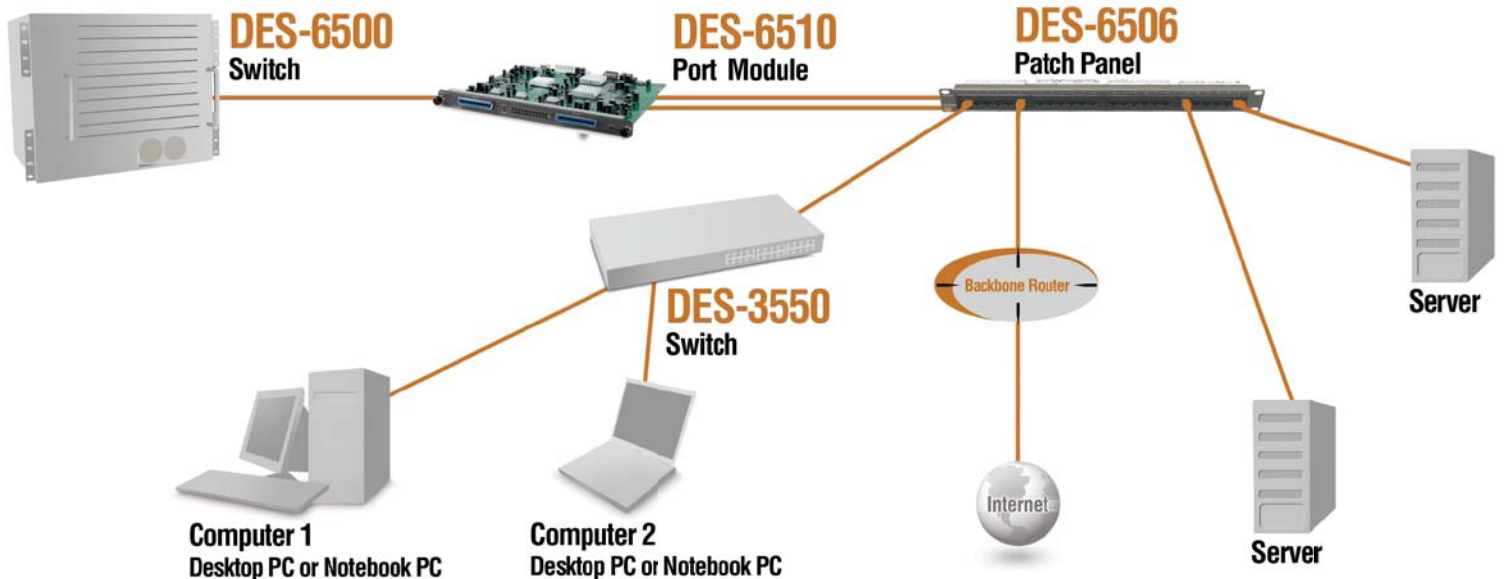

## Patch Panel

### 24-Port RJ-21 to RJ-45 Patch Panel

The DES-6506 is a 24-port RJ-21 to RJ-45 patch panel for the D-Link DES-6510 RJ-21/ Telco 50 module. Both modules are designed for the D-Link 6500 Chassis. The DES-6510 module supports 2 RJ-21/Telco 50 connectors that provisions to (24) 10BASE-T/100BASE-TX. The DES-6510 is a 1U high patch panel that gives an easy and convenient way to provide instant RJ-45 connection. It supports two RJ-21 ports that maps to 24 RJ-45 ports. Simply connect the RJ-21 ports on the DES-6510 to the DES-6506 and the DES-6506's panel simply becomes a medium for passing traffic between the blade and the connected stations. All management features supported on the DES-6510 are still supported.
