D-Link, an industry leader in networking, introduces the DPH-100 VoIP-Phone. The DHP-100 is a Voice over Internet Protocol (VoIP) Telephone that lets you make phone calls using the Internet. The DPH-100 uses the latest in Voice over IP technology, which converts your voice into data packets and sends your calls through the Internet.

Using the DPH-100 to make calls through the Internet, you can significantly reduce your telephone expenses by eliminating your domestic and international long distance charge. You can talk more and save money.

The DPH-100 works like a plain old telephone. Installation is as simple as plugging in an Ethernet cable. The DPH-100 uses a Fast Ethernet port to connect to your DSL/Cable modem or router. Once connected to your broadband network, you are ready to make and receive calls anytime.

[1] Standard Internet/VoIP usage fees may apply.

The DPH-100 incorporates QoS (Quality of Service) functions to ensure high voice quality regardless of your Internet usage. The DPH-100 will ensure that the voice packets get priority through your network, while still allowing you to utilize your Internet connection for other tasks.

The DPH-100 includes all the phone functionality you would expect from a quality D-Link product. With its built-in speakerphone and a LCD screen, the DPH-100 makes handling all your calls more simple. Use the LCD screen to access your address book and view incoming and outgoing phone numbers. The phone also features redial, mute, flash and hold functions.

- TCP/IP, UDP, ARP, TFTP, ICMP, DHCP, HTTP
  Audio Codec Compliant
- G.711, G.723.1, G.729A
  Echo Cancellation
- G.165, G.168 Compliant

Standard
- IEEE 802.3 10BASE-T
  Ethernet Compliant
- IEEE 802.3u 100BASE-TX
  Fast Ethernet Compliant

Function Support
- Redial
- Memo
- Mute
- Flash
- Hold
- Speaker
- Address book (10 sets)
- Review address record
- Speaker volume adjust

Key Pad
0~9, and programmable feature buttons

LAN Interface
Two 10/100BASE-TX RJ-45 ports

LCD Interface

Two lines of 16-character LCD display

Power Supply
- AC-to-DC power adapter (provided)
- Input 12V/1A

Dimension
6.38(W) x 8.78(D) x 3.2(H) inches

Operating Temperature
0° - 50°C

Storage Temperature
-10° - 60°C

Humidity
5% - 95% non-condensings

Emission(EMI)
- FCC class B
- VCCI class B
- BSMI class B
- CE class B
- C-Tick class B

Safety
- UL/CUL
- TUV/GS

Warranty
1 Year
