*VisualStream*<sup>™</sup> Digital Multimedia  
USB 1.1 Streaming  
**PC Camera**

The D-Link VisualStream<sup>™</sup> DSB-C110 PC Camera is a streaming USB digital video camera. With 352 X 288 resolution and support for up to 30 frames per second, the DSB-C110 captures flicker-free still images and records seamless video clips. As a fully contained unit, no video capture card or additional hardware is necessary. The unit simply attaches via a standard USB type A connector to a PC or downstream USB hub.

From videoconferencing to taking digital snapshots, the D-Link VisualStream DSB-C110 PC Camera gives you a variety of options to communicate over the Internet quickly and simply.

The bundled Arcsoft<sup>™</sup> Software allows you to create and edit video and images, and also provides features for creating digital content, making the VisualStream PC Camera a great addition to any home PC.

The DSB-C110 comes complete with hardware and software for anyone to begin making digital videos immediately.

The DSB-C110 is also fully compatible with Microsoft<sup>®</sup> NetMeeting for one-on-one videoconferencing. Make your communications with your family and friends truly memorable with the VisualStream DSB-C110. It is the next best thing to being there personally.
