D-Link Quick Installation Guide

This product can be configured using Internet Explorer 5.x or above; Netscape 6.2.x or above; Apple Safari; Linux Nautilus.

and a second

DSM-602H DSM-604H Digital Media Storage

Before You Begin

You must have at least the following for configuration:

1. A DHCP server assigning IP addresses during the initial setup process.

2. A computer with Windows XP, 2000, ME, 98se, Apple MAC OSX, or Linux based operating system with an installed Ethernet adapter.

3. Activating UPnP in Windows XP and ME is optional, but is highly recommended for ease of use.

Check Your Package Contents

If any of the above items are missing, please contact your reseller.

When you have completed the steps in this Quick Installation Guide, your connected network may look similar to this:

A. First, connect the power adapter to the connector on the back panel of the DSM-602H/604H. Then plug the other end of the power adapter into a wall outlet or power strip. The Power LED will be on to indicate proper operation.

B. Connect an Ethernet cable to the Ethernet jack located on the back of the DSM-602H/604H.

C. After the Ethernet cable is securely connected, connect the other end of the Ethernet cable to your network router or switch.

Access the DSM-602H/604H in Windows ME or XP

For Windows ME or XP users, it is recommended to activate UPnP for ease of use. To learn how to activate UPnP, please refer to page 20 of the manual.

Your setup in Windows XP or ME is now complete!
