Product Highlights

Automatic Scheduling
Schedule power on/off for your appliance

Access from Anywhere
Manage your device remotely using a mobile app

On & Off Device Control
Turn your device on and off from your phone

Your Home, Only Smarter.

The DSP-W118 Mini Wi-Fi Smart Plug is a versatile and easy-to-use device that allows you to monitor and control an electrical appliance from wherever you are. Its compact size lets you inconspicuously build a connected home and the legible LED lets you know the status at a glance. Scheduling provides a helpful way to save power while you're at work or asleep, and the mydlink™ app provides an easy way to set up alerts or manually power a device on or off, giving you peace of mind – anytime.

Control Your Appliance from Anywhere

With the DSP-W118 Mini Wi-Fi Smart Plug, you can control the attached electrical appliance in your home while you're away. Set a schedule that turns your TV off when you're asleep, power on your coffee maker before you wake up, or automatically turn on your living room lamp while you're on vacation. The free mydlink™ app works with iPhone®, iPad®, and Android™ devices to allow you to remotely switch your appliances on or off from your mobile device and manage your power schedules while on the go.

Smart, Compact Design

The DSP-W118 Mini Wi-Fi Smart Plug is designed to fit into any home decor inconspicuously. The compact design means that it won't obstuct the other electrical sockets next to it. A LED at the top-right corner of the device lets you quickly see the device status at a glance from across the room.

Easy to Set Up

The DSP-W118 Mini Wi-Fi Smart Plug lets you connect any electrical appliance for control via your smart home network. Just plug it into a wall outlet then plug a device into the power socket. Fire up the free mydlink™ app on your mobile device to add the DSP-W118 Mini Wi-Fi Smart Plug to your smart home network. You can also set schedules and automate your appliances, as well as set automation rules that interact with other mydlink devices.
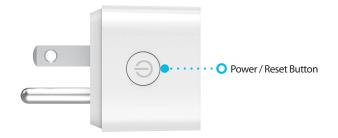

Features

♦ Smart remote power control

♦ Cable-free installation
