

## **DSR-250N Firmware Hotfix Release Notes**

**Firmware: 3.17B401C\_WW Hotfix**

**Hardware: Cx**

**Date: December 1, 2020**

### **Overview:**

On August 11, 2020, a 3rd party security researcher submitted a report accusing the DSR-250 Hardware Revision A1 using firmware v3.17 or older (2) Authenticated remote command execution (1) unauthenticated vulnerabilities. Since this product shares firmware with other models in the DSR Family, DSR-150 / DSR-250 / DSR-500 / DSR-1000AC will require updates to patch these issues.

**DISCLAIMER:** Please note that this is a device beta software, beta firmware, or hot-fix release which is still undergoing final testing before its official release. The beta software, beta firmware, or hot-fix is provided on an “as is” and “as available” basis and the user assumes all risk and liability for use thereof. D-Link does not provide any warranties, whether express or implied, as to the suitability or usability of the beta firmware. D-Link will not be liable for any loss, whether such loss is direct, indirect, special or consequential, suffered by any party as a result of their use of the beta firmware.
