QUICK INSTALL GUIDE
WDA-1320

VERSION 1.1

D-Link®

WIRELESS

Package Contents

- D-Link WDA-1320 Wireless PCI Card
- CD-ROM (contains manual, software, and warranty)

  If any of the above items are missing, please contact your reseller.

System Requirements

- A desktop computer with an available 32-bit PCI slot
- Windows® Vista™, XP (Service Pack 2) or 2000 (Service Pack 4)
- 300MHz processor and at least 64MB of RAM
- An 802.11g or 802.11b access point (for Infrastructure mode)

Before You Begin

Before installing your new D-Link wireless adapter, please verify the following:

- Remove any previous installations of wireless adapters
- Disable any built-in wireless adapters
- Verify the settings such as the SSID and security settings of the network(s) you want to connect to

If you've installed a different manufacture's adapter or a different model D-Link adapter, make sure the software is uninstalled before installing the new software. Some utilities may cause a conflict with the new software. If you plan to use multiple adapters at different times, make sure the utilities are not set to load when your computer boots up. Windows® XP/Vista™ users may use the built-in wireless utility for all adapters.
Software Installation

Warning: Do NOT install the WDA-1320 Wireless PCI Card into your computer before installing the driver software from the D-Link CD.

Step 1:
Turn on the computer and insert the D-Link WDA-1320 Driver CD in the CD-ROM drive. If the CD Autorun function does not automatically start on your computer, go to **Start** > **Run**. In the run box type "**D:\WDA-1320.exe**" (where *D:* represents the drive letter of your CD-ROM drive).

Step 2:
When the autorun screen appears, click **Install Drivers** and follow the on-screen instructions to install and configure your wireless adapter.

Step 3:
After installation, the D-Link WDA-1320 uses the Wireless Connection Manager as the management software. The manager provides the user an easy interface to change any settings related to the wireless adapter. Clicking on the Wireless Connection Manager icon on the desktop will start the Configuration.

Technical Support

D-Link's website contains the latest user documentation and software updates for D-Link products.
