

## COVR

Tri Band Whole Home Wi-Fi System

# Simple Setup Guide

There are two easy ways to set up your Covr Wi-Fi System:

- 1 **D-Link Wi-Fi App Setup**  
Download the D-Link Wi-Fi app from the App Store or Google Play.

- 2 Open the app and tap **Install Your Device**. Next, either scan the QR code in the Quick Install Card, or select **COVR-2202** from the list and follow the on-screen instructions to complete the setup.

OR

- 1 **Web Browser Setup**  
Connect the power adapter and plug in the Covr Point labeled **A**.

- 2 When the Covr LED is blinking amber, connect your PC or laptop to the Wi-Fi name (SSID) printed on the back of the device, or on the included Wi-Fi Configuration Card.

- 3 Type **http://covr.local/** into a web browser and follow the on-screen instructions to complete the setup.

## Covr Point Placement Guideline

Place your Covr Points around your home to extend your whole home Wi-Fi.

Check the LED indicator on your Covr Points to ensure proper connection.

Solid white: Strong signal.

Blinking white: Weak signal. Move your Covr Point closer to Covr Point **A** until the LED turns solid white.

Blinking orange: No signal. Move your Covr Point closer to Covr Point **A** until the LED turns solid white.

## Technical Support

Having trouble installing your new product? D-Link's website contains the latest user documentation and software updates for D-Link products. You can also contact D-Link Technical Support through our website, or phone number below.
