## Revision History and System Requirement:

| Firmware Version | Date       | Model     | Hardware Version |
|------------------|------------|-----------|------------------|
| V1.01.06         | 2016/4/11  | DCS-5030L | A1               |
| V1.00.36         | 2015/09/25 | DCS-5030L | A1               |
|                  |            |           |                  |
|                  |            |           |                  |

## Upgrading Instructions:

Follow the steps below to upgrade the firmware:

1. Download the latest firmware file from the D-Link website. The file is in .bin file format.
2. Log-in camera web UI and enter setup/Maintenance/Firmware upgrade
3. Click Browse... and specify the firmware file.
3. Click Upgrade. The camera starts to upgrade and will reboot automatically when the upgrade completes.

## New Features:

| Firmware Version | New Features  |
|------------------|---|
| V1.01.06         | <ol style="list-style-type: none"> <li>1. Update Mydlink Agent to v2.0.20-b22</li> <li>2. Upgraded OpenSSL to 1.0.1q</li> <li>3. Change the HTTPs self-signed certificate to SHA2 algorithms.</li> <li>4. Change the default system time to 2016-01-01</li> <li>5. Change the copyright year in the web-UI to 2016.</li> <li>6. Change the factory default of video setting 720p/20fps/512kbps for D-Link China production using.</li> <li>7. Support to send the email notification to multiple email addresses.</li> <li>8.
