**D-Link**
Building Networks for People

Quick Installation Guide
Full HD WDR Day & Night Outdoor Network Camera

This document will guide you through
the basic installation process for your new
D-Link Network Camera.

DCS-7513

Quick Installation Guide

Quick Install Guide

This installation guide provides basic instructions for installing the Network Camera on your network. For additional information about how to use the camera, please see the User's Manual which is available on the CD included in this package or from the D-Link support website.

Installation Steps

1. Verify the package contents against the list below.
2. Hardware Overview
3. SD Card Installation
4. Hardware Installation
5. Configuration with Wizard

1. Package Contents

- DCS-7513 Network Camera
- Quick Install Guide
- Power Adapter
- AV & Power Cables
- CAT5 Ethernet Cable
- Extension Adapter
- Mounting Bracket and Screws
- Manual and Software on CD-ROM

If any of the above items are missing, please contact your reseller.

Safety Notice:
Installation and servicing should be done by certified technicians to conform to all local codes and prevent voiding your warranty.
2. Hardware Overview

Ethernet Jack
RJ-45 connector for Ethernet which can also be used to power the camera using Power over Ethernet (PoE)

Power Connector
Connects to 12 V DC power

Audio Out
Connects to speakers

Audio In
Connects to a microphone

DI/DO Wiring, 12V DC output
I/O connectors for external devices

24 V Power Connector
Connects to 24 V AC power

Reset Button
Resets camera to factory default settings

BNC
Analog video output

3. SD Card Installation

Disassemble the Camera
Open the camera by loosening the 2 screws.

Install the SD Card
Push the SD card into the camera with the gold contacts directed towards the base of the camera. To eject the SD card, push the SD card into the slot.

SD CARD CONNECT

4. Mounting Instructions

Mounting Installation
Please see the User Manual for detailed instructions regarding the installation and mounting of the camera using a mounting bracket.

Figure 2.1

Figure 2.2

Figure 2.3

Figure 2.4

General Connection Using 12 V DC Power Adapter
1. Connect the network camera to your network using an Ethernet cable.
2. Connect the supplied power cable from the camera to a power outlet.

General Connection Using 24 V AC Power Wiring
1. Connect the network camera to your network using an Ethernet cable.
2. Connect the supplied power cable from the camera to a power source such as your building's emergency power.

Connection with a PoE Switch
If you are using a PoE switch, connect the IP camera to the switch using an Ethernet cable, which will provide transmission of both power and data over a single cable.
5. Configuration with Wizard

Insert the DCS-7513 CD into your computer's CD-ROM drive to begin the installation. If the Autorun function on your computer is disabled, or if the D-Link Launcher fails to start automatically, click **Start > Run**. Type **D:\autorun.exe**, where D: represents the drive letter of your CD-ROM drive.

Click **Setup Wizard** to begin the installation.

After clicking Setup Wizard, the following window will open.

Click **Next** to continue.
Click **Yes** to accept the License Agreement.

To start the installation process, click **Next**.

Note: The installation may take several minutes to finish.

Click **Finish** to complete the installation.

Click on the **D-Link Setup Wizard SE** icon that was created in your Windows Start menu.

Start > D-Link > Setup Wizard SE

The Setup Wizard will appear and display the MAC address and IP address of your camera(s). If you have a DHCP server on your network, a valid IP Address will be displayed. If your network does not use a DHCP server, the network camera's default static IP **192.168.0.20** will be displayed.
Click the **Wizard** button to continue.

Enter the Admin ID and password. When logging in for the first time, the default Admin ID is **admin** with the password left blank.
Click **Next**, to proceed to the next page.

Select DHCP if your camera obtains an IP address automatically when it boots up. Select Static IP if the camera will use the same IP address each time it is started.
Click **Next**, to proceed to the next page.

Take a moment to confirm your settings and click **Restart**.

Viewing Camera via Web Browser

Click on the **D-Link Setup Wizard SE** icon that was created in your Windows Start menu.
Start > D-Link > Setup Wizard SE

Select the camera and click the button labeled "**Link**" to access the web configuration.

The Setup Wizard will automatically open your web browser to the IP address of the camera.

Enter **admin** as the default username and leave the password blank. Click **OK** to continue.

This section shows your camera's live video. You can select your video profile and view or operate the camera. For additional information about web configuration, please refer to the user manual included on the CD-ROM or the D-Link website.
