DIR-1960 A1 Firmware Release Note

Firmware: v1.11

Hardware: A1

Date: 2020/07/10

Note:

N/A

Problems Resolved:

1. Fixed IOT issue with the specific cable modem.
2. Fixed Parental Control issue that the setting might be lost when DUT restart.

Enhancements:

1. Enhanced Wi-Fi Mesh for better user experience.
2. Support 802.11K/V
3. Improved IOT issue with the specific client when SmartConnect is enabled.
4. Improved IOT issue with the legacy client and repeater.

Known Issues:

NAT(PPPoE/DHCP) Wi-Fi performance won't meet Dlab's criteria due to CPU limitation.
