

DWL-M60AT

- Extends the Range of Your Wireless Device
- Improves Directional Coverage
- Includes Wall Mounting Kit
- Works With 802.11b/g Networking Devices

2.4GHz Directional **Indoor Antenna**

D-Link, an industry leader in networking, introduces the DWL-M60AT 2.4GHz Directional Indoor Antenna. The DWL-M60AT antenna provides extended signal range for an 802.11b/g wireless device.

The DWL-M60AT is a 6dBi directional antenna, giving you extended wireless signal range in a concentrated direction. This 6dBi antenna will also improve signal quality at further distances than an omni-directional antenna.

The D-Link DWL-M60AT connects to a variety of D-Link Wireless PCI Adapters, Routers, and Access points. Using a SMA connector or the

included conversion adapter (RP-SMA to TNC), the D-Link DWL-M60AT also easily connects to other existing wireless networking devices.

The DWL-M60AT's directional panel design gives you increased wireless signal range in any one direction. Avoid the cost and complexity of adding additional access points or repeaters when you can easily use the DWL-M60AT.

The DWL-M60AT includes a sturdy stand for placement on flat surfaces and can also be mounted on a wall using the included kit.

2.4GHz Directional Indoor Antenna

DWL-M60AT

SPECIFICATIONS

Frequency Range

- 2.4GHz – 2.5GHz

Gain

- 6dBi

VSWR

- 1.5 : 1 Max

Polarization

- Linear, Vertical

HPBW

- Horizontal - 80 degrees
- Vertical - 80 degrees

Power Handling

- 20W (cw)

Impedance

- 50 Ohms

Connector

- SMA
- Reverse SMA to TNC

Cable

- 1.5m ULA-316 Fixed Cable

Operating Temperature

- 14° F to 131° F (-10° C to +55° C)

Humidity

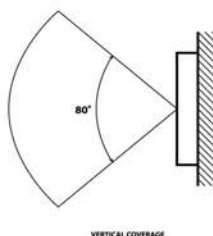

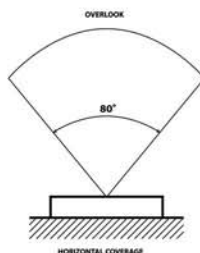

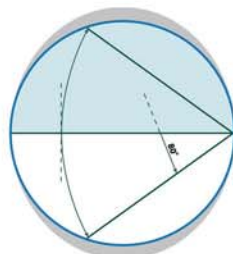

- 95% @ 25° C

Weight

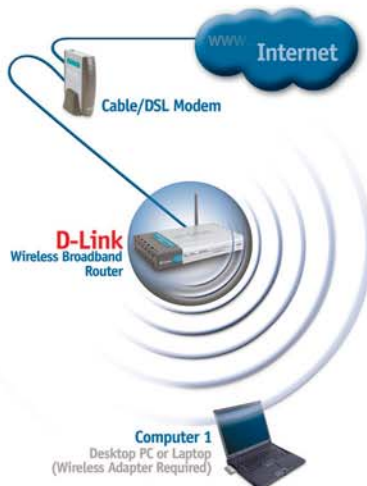

- 0.24 lbs (110g)

Warranty

- 1 Year

Add the DWL-M60AT to your 802.11b/g wireless PCI Adapter, Router or Access point for additional wireless signal range.
